

# Computer Configuration

The following 6 pages will provide setup instructions necessary for optimum aGQa results and satisfaction.

- **Defragment/Clear Browsing Data**
- **aGQa Desktop Icon**
- **Screen Resolution**
- **Printer Configuration**
- **Internet Settings**
- **Speed Test/Check PC**

The following instructions pertain to Microsoft Internet Explorer. The figures depict Internet Explorer Version 7. Although your version of Internet Explorer may look slightly different, the steps are the same. For maximum results and performance, aGQa recommends using Microsoft Internet Explorer with all aGQa Programs.

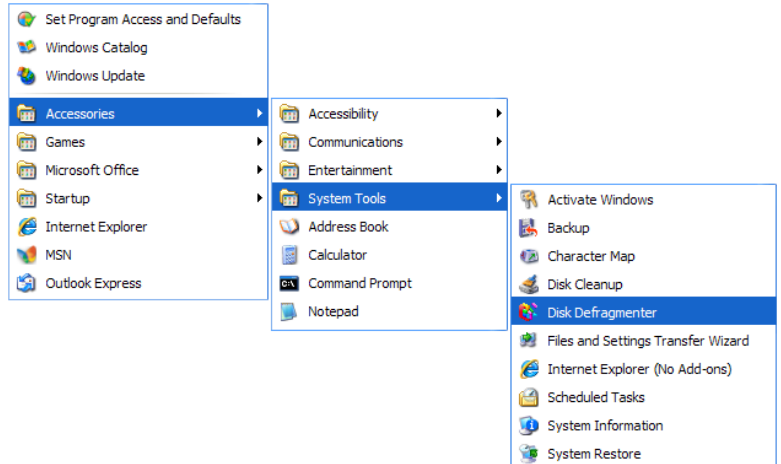

# Defragment/Clear Browsing Data

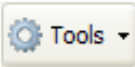

Ensure optimal hard drive performance / Receive aGQa program updates

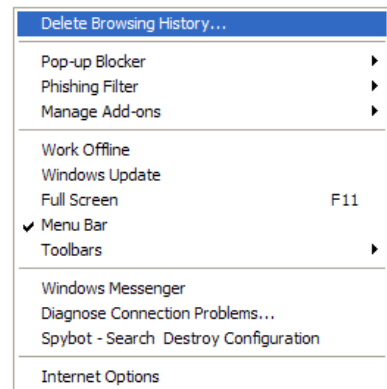

**Disk Defragmentation:** Organizes your computer's hard drive, potentially increasing your computers speed and performance.

- Select 
- Select 
- Select Accessories
- Select System Tools
- Select Disk Defragmenter
- Select Defragment

**Clear Browser Cache/Browsing History:** Clear Saved cookies, files, and passwords to free your memory. aGQa is constantly changing as the jewelry industry demands. By clearing your browsing history you will be able to receive all the latest updates.

- Open Internet Explorer
- Select 
- Select Delete Browsing History
- Clear All Browsing History

 If you use an alternative internet browser program (such as Mozilla, Firefox or Google Chrome) please review the software documentation instructions for clearing your browsing data.

\*aGQa offers free limited computer technical support as it relates to aGQa software and technology.

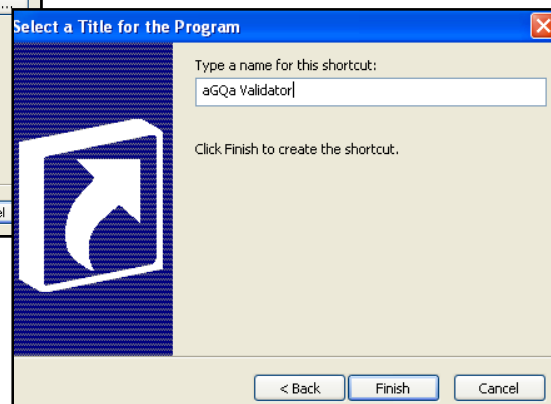

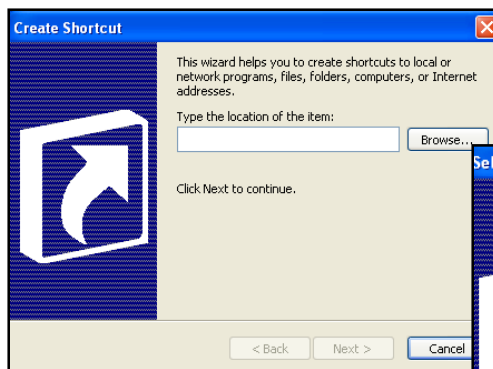

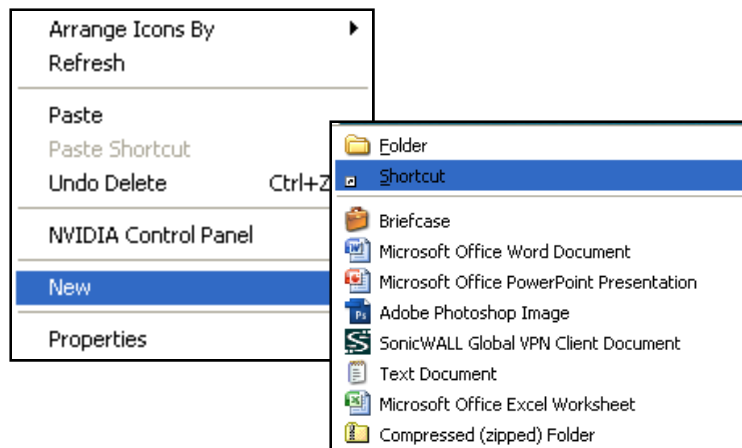

# aGQa Desktop Icon

Create a Validator Icon for easy access to aGQa

**PC Users:** Right Click on your Desktop

- Select New
- Select Shortcut
- Enter Location:
- <http://www.aGQa.com/agqaretailvalidator/webValidatorLogin.aspx>
- Select Next
- Enter aGQa Validator as shortcut title
- Select Finish

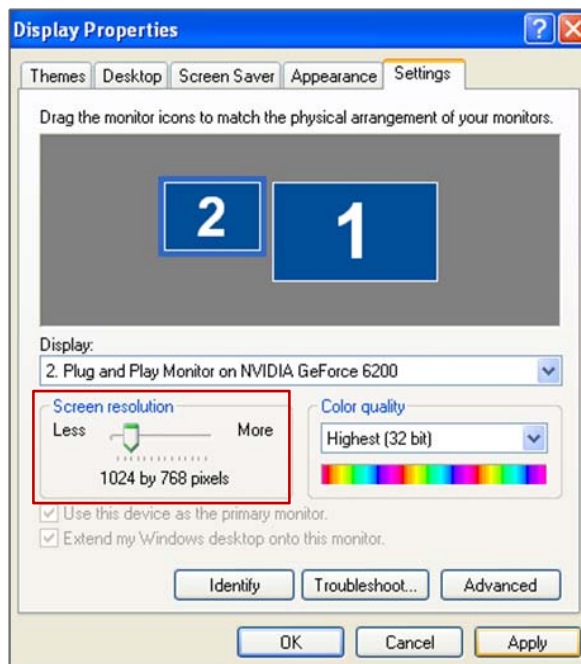

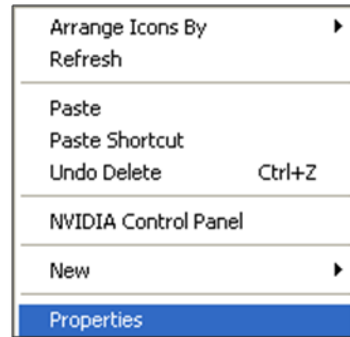

# Screen Resolution

Adjust your screen's properties for optimal display.

- \* Adjust the screen resolution to the highest level, as long as you can read the Validator and the screen is not cut off.

- **Right Click** your desktop
  - Select **Properties**
  - Select **Settings**
  - Adjust Screen Resolution
- \*Minimum Resolution: 1024x7680

Larger  
Screens:

e.g. for a 22" Wide  
Monitor

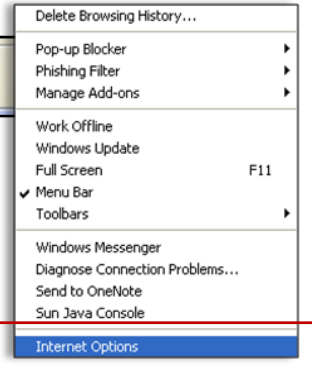

# Printer Configuration

Adjust internet settings for aGQa to print receipts.

 **Enable ActiveX control:** Allow the customer's validation receipt to auto print from your selected default printer.

a.) Select Tools  
Select Internet Options

b.)

Select Security Tab  
\* Highlight Trusted Sites  
Click Sites

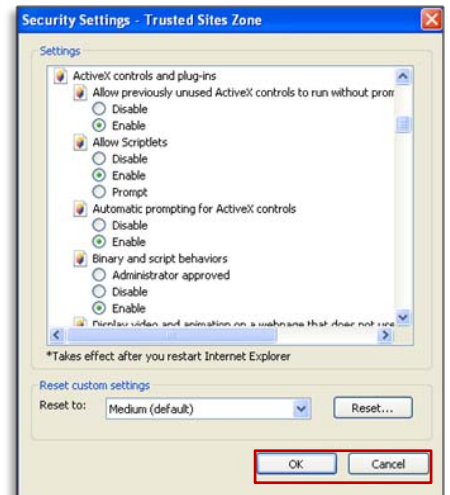

c.)

Enter <http://www.aGQa.com>  
\* in Add this Website to the zone:  
Uncheck Box (bottom of screen)  
Click Add  
Select Close

d.)

Select Custom Level  
Scroll down to ActiveX section  
Select Enable to each section  
Click OK to exit

\*Download MeadCo Script X to force the validation receipt to print automatically, only if your computer is defaulted to the receipt printer:

<http://www.meadroid.com/scriptx/sxdownload.asp>

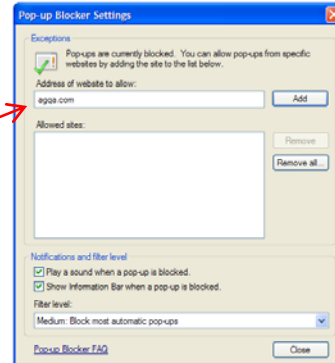

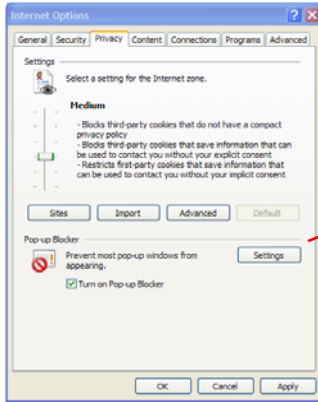

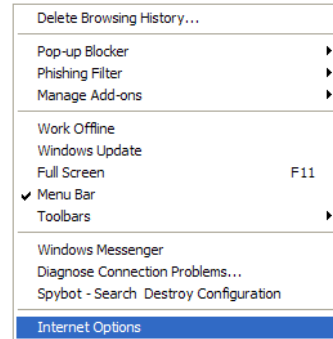

# Internet Settings

Adjust your computer setting for aGQa to open properly.

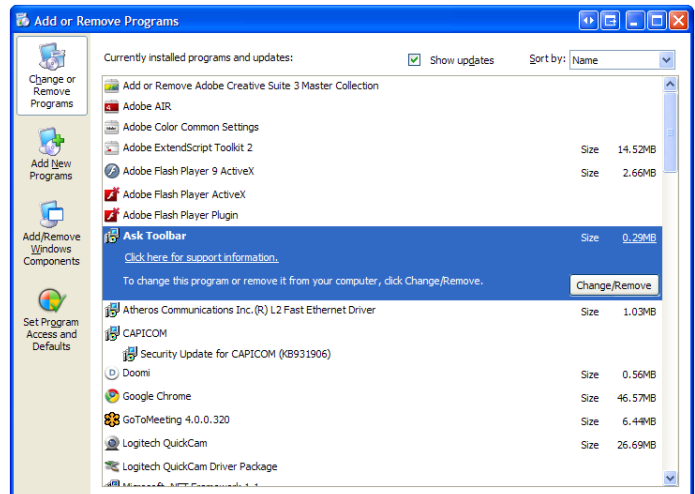

## Exempt aGQa from Pop-up Blockers:

- Open **Internet Explorer**
- Select  **Tools**
- Select **Internet Options**
- Select **Privacy**
- Select **Settings**
- Enter **aGQa.com** to allow site.
- Select **Add**

**Uninstall:** IE toolbars like AOL, Yahoo!, Google, ASK!, etc. as they contain additional popup blockers.

- Select 
- Select **Control Panel**
- Select **Add or Remove Programs**
- Review programs, **Remove Toolbars**
- **Restart Your Computer**

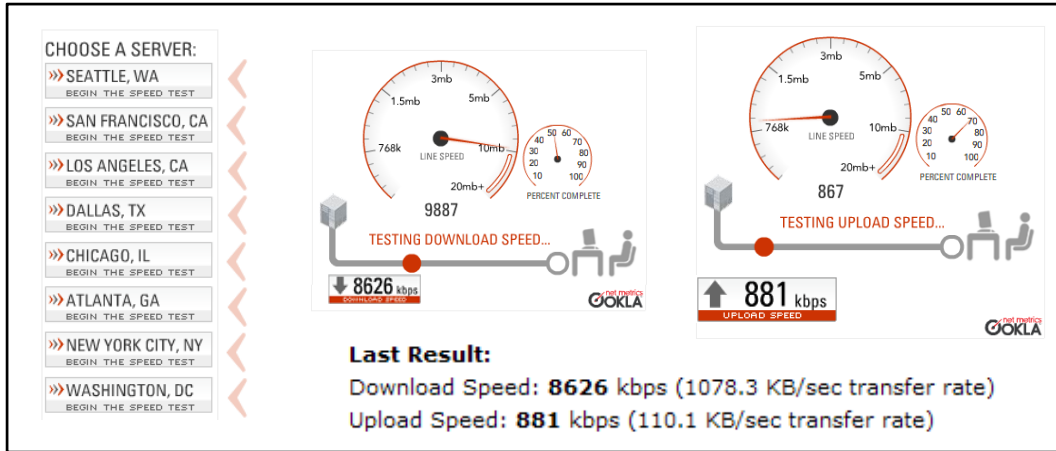

# Speed Test/Check PC

Check Internet performance and Compatibility with aGQa

**Speed Test:** Check your internet speed. aGQa may ask you to run this test. If your computer is not up to speed, it may affect your aGQa application.

- Select **Speed Test** from the Validator
- Select **Server**

**Check PC:** Run a basic diagnostic check of your computer and internet connection. Red items may represent issues with your PC. Email results to the aGQa Support Team.

- Select **Check Pc** from the Validator
- Select
- Enter your **Name and Company**
- Select **Email Report to aGQa**
